

General Inspection Checklist for Kitchenware and Tableware

Scope:

A general quality inspection checklist for Kitchenware and Tableware if clients have not defined their requirement.

Defective Classification

- * Critical Defect Defects which could result in hazardous or unsafe conditions for individuals using or maintaining the product as well as defects contravening legal regulations;
- * Major Defect Function defects reducing the usability or solidity of the product as well as obvious visual defects reducing the sales value of the product.
- * Minor Defect Defects that are unlikely to reduce the use of the product, but nevertheless may influence the sale.
